ILEA DEDICATES NEW BUILDING

The International Law Enforcement Academy celebrated the dedication of its new building on February 22. Dr. Judy Armstrong, Provost joined a number of dignitaries who attended the opening ceremony, including U.S. Senator Pete Domenici and Congressman Steve Pearce.

The new 25,000 square foot building includes computer labs, classrooms, offices and meeting rooms for ILEA students and staff. To date, more than 1800 students from 68 countries have attended ILEA-Roswell. ILEA-Roswell classes have been taught in 25 separate languages. New Mexico Tech operates ILEA under a cooperative agreement with the U.S. Department of State. New Mexico Tech partners operating ILEA are ENMU-Roswell, Sam Houston State University, and Science Applications International Corporation.

LECTURER SPEAKS WITH AREA STUDENTS

Motivational speaker Stanley Leone, Jr., spoke to several middle school and high school classes in Roswell on January 24. On January 25 Leone spoke to students from Lake Arthur, Hagerman, and Dexter. GEAR UP co-sponsored his visit.

During his speaking career, Leone has brought the tragedy and triumph of his life to tens of thousands of people. Stanley describes his childhood as insecure, confused, scared, sexually and physically abusive, and homeless. Spiraling into drugs, gang activity, and incarcerations, he shares with students the relationships that changed him. He reminds teachers that they do count and they do make a difference...a huge difference in his case. Leone's remarkable turnaround led to him later graduating with honors from Saint Xavier University. Stanley has keynoted alongside world-renowned speakers at some of the largest educational conferences in the nation.

ENMU-ROSWELL PTK SELECTS SCHOLARSHIP NOMINEE

On Friday, January 27, the Phi Theta Kappa advisors of ENMU-Roswell met to select ENMU-Roswell's nominee for the Jack Kent Cooke Foundation scholarship. Their choice was Cynthia Cobos, who is currently a student at ENMU-Roswell pursuing a degree in social work. Ms. Cobos has a GPA of 3.64. She works as a substitute teacher in the Roswell Independent School District, and maintains an active life which either currently or in the past has included sports, dance, church and service activities. She is married and has a five year old daughter.

The Jack Kent Cooke Scholarship recruits graduating students from two-year colleges across the nation by permitting each two year college the opportunity to recommend two nominees each year. These nominees compete with other nominees from other campuses for a chance at a scholarship grant good at any accredited college and university for their final years of college, worth up to \$30,000.

WHAT'S NEW IN THE LRC

The LRC continues to acquire a wide range of books in a variety of genres as we look forward to the beginning of spring. Here are just a few of our new titles:

- Matisse the Master: a Life of Henri Matisse*, by Hillary Spurling
Calculated Risk: the Extraordinary Life of Jimmy Doolittle – Aviation Pioneer and World War II Hero, by Jonna Doolittle Hoppes
The Fox and the Whirlwind: General Crook and Geronimo – a Paired Biography, by Peter Aleshire
On the Waterfront, by Malcolm Johnson
The Buddha Book, by Lillian Too
Where the Trail Grows Faint: a Year in the Life of a Therapy Dog Team, by Lynne Hugo
Lester Young, by Lewis Porter
Binge: What Your College Student Won't Tell You, by Barrett Seaman
Double Cross Blind, by Joel N. Ross
Augustine: a New Biography, by James J. O'Donnell
The Entrepreneurial Community College, edited by John E. Roueche and Barbara R. Jones
The Oxford Shakespeare: the Complete Works, second edition, edited by John Jowett ... et al
Succeeding with Autism: Hear My Voice, by Judith H. Cohen
Finding Manana: a Memoir of a Cuban Exodus, by Mirta Ojito
Philosophers Behaving Badly, by Nigel Rodgers and Mel Thompson
The Death Collectors, by Jack Kerley
Hitler's Peace: a Novel, by Philip Kerr
Criminal Case 40/61, the Trial of Adolf Eichmann: an Eyewitness Account, by Harry Mulisch

United Blood Services personnel ready their clinic for the ENMU-Roswell campus blood drive held Monday, January 30.

MARS WORKSHOP HELD FOR K-12 TEACHERS IN SOUTHERN NEW MEXICO

The New Mexico MESA (Mathematics, Engineering, Science Achievement) program held a special Mars Workshop for K-12 teachers in the southern region. The workshop was held on Saturday, February 18 from 9:00 a.m. to 3:00 p.m. at ENMU-Roswell in the Instructional Center (IC), Room 112A. This workshop was available to only 30 teachers.

The workshop was presented by educators from the New Mexico Museum of Natural History and Science and LodeStar Astronomy Center, with special guest instructors Dr. Larry Crumpler, Mars Exploration Rover (MER) scientist and New Mexico geologist, and Joseph Aragon of Laguna-Acoma High School. Aragon is one of only 13 teachers selected nationwide to participate in the MER mission.

The objectives of the workshop were the following:

- To offer a day-long Mars and Mars Exploration Rover Mission-related workshop to K-12 classroom teachers in order to share new inquiry-based MER-related classroom activities, materials and resources, linked to National and State of New Mexico science standards.
- To link teachers with their local connection, a New Mexico scientist who is a MER Science Team member and NASA Researcher, and to allow them to make a personal connection to NASA, the MER mission and its discoveries
- To provide concise, factual, reliable, and entertaining presentations of the relevant information about Mars and Mars missions
- To provide teachers with the tools they need to excite their students across the curriculum, by using Mars to teach science, mathematics, social studies, language arts and literacy and visual arts

Attending teachers received a stipend of \$35, Mars materials to be used in the classroom, including posters, maps, and images, and a copy of the complete "Making Tracks on Mars" curriculum on CD.

ENMU-ROSWELL TO PROVIDE PARAMEDIC TRAINING FOR UNITED STATES AIR FORCE

Eastern New Mexico University-Roswell has entered into a unique partnership with the United States Air Force (USAF) to provide training to the Pararescue/Combat Rescue Officer (PJ/CRO) School at Kirtland Air Force Base (KAFB) in Albuquerque. The partnership calls for the Emergency Medical Technician (EMT) Basic and paramedic instruction to be provided by ENMU-Roswell for the next five years. KAFB is the home of the PJ/CRO School, and houses two of eight specialty schools that PJ/CRO candidates are required to complete.

Currently, two classes are being taught at Kirtland Air Force Base in Albuquerque. One class is taught by ENMU-Roswell instructors and the other by USAF instructors. After July of this year, all of the classes taught at KAFB will be taught by civilian instructors employed by ENMU-Roswell. Many of the instructors are graduates of ENMU-Roswell. "We are deeply honored that the United States Air Force has selected ENMU-Roswell to be their sole education partner for the pararescue paramedic degree," said Dr. Judy Armstrong, ENMU-Roswell Provost. "It is a wonderful testimony to the high quality of the program faculty, curriculum, and clinical experiences and the outstanding success rates of the program graduates. We look forward to serving our country through this partnership and to helping these exceptional young men become exceptional paramedics."

"We are proud and honored with this partnership and that we are able to support our military and the war on terrorism," said Mike Buldra, Director of the Emergency Medical Services Education Program at ENMU-Roswell. "The pararescuemen are a unique group of individuals dedicated to saving lives. With this partnership, ENMU-Roswell has one of the largest training programs for paramedics in the nation," he said.

This partnership will involve several classes taught at both KAFB and on the ENMU-Roswell campus. These students will be trained to the same Department of Transportation standard as ENMU-Roswell's civilian students, but at an accelerated rate. In 2002, the USAF and ENMU-Roswell entered into a consortium agreement to provide accreditation and college credit for the students taught at KAFB by USAF Instructors. Buldra said this new partnership between ENMU-Roswell and the USAF is an effective way to increase the number of graduates from the PJ/CRO School.

Since 2002, ten classes of pararescuemen have graduated from the Kirtland AFB program. The primary mission of pararescuemen is that of a personnel recovery specialist with emergency medical capabilities in peacetime and combat environments. They also specialize in search and rescue (SAR); combat search and rescue (CSAR); recovery support for NASA; and conduct other operations as appropriate, including Special Operations. Pararescue personnel also have an increased role in providing care to civilians in the areas of military operations.

ENMU-ROSWELL RECEIVES MARKETING AWARDS

ENMU-Roswell has recently been recognized in two national awards competitions for its marketing efforts. The 21st Annual Admissions Advertising Awards competition selected ENMU-Roswell for a Merit Award in the Student Video Viewbook category. The DVD called "The Community University" was produced by Shawn Hughes, President of ImageGroup Marketing, Donna Gutierrez, College Development Director, and Dina Jenks, Career and Technical Education Recruiter.

The 'Admissions Marketing Report' sponsors the annual Admissions Advertising Awards competition. The monthly publication is the national newspaper of admissions marketing. A national panel of marketing, advertising and academic professionals evaluated entries from colleges and universities across the U.S. on creativity, marketing execution and impact of message.

The campus received a Silver Award for its "2004 Progress Report" in the Annual Report Category in the 2005 National Council for Marketing and Public Relations (NCMPR) District 4 Medallion Awards Competition. The publication was developed by Gutierrez, Raul de Lara, Publications Specialist, and Linda Whitehead, Administrative Secretary.

ENMU-Roswell also received a Bronze Award in the 2005 Medallion Awards Competition for its entry titled "Career & Technical Education - Generic" in the Video Advertising/PSA, Single Category. The television spot was produced by Jenks and Hughes.

Winners will receive plaques and be recognized on Saturday, March 18 during the NCMPR District 4 Medallion Awards dinner and ceremony in Austin, Texas. The award ceremony will be held in conjunction with the 32nd Annual NCMPR National Conference March 19 – 22 in Austin.

ENMU-ROSWELL MATH INSTRUCTOR TO SUBMIT ENCYCLOPEDIA ARTICLE

ENMU-Roswell mathematics instructor, Dr. Donald R. Burleson, has been commissioned to write an article on "the alien icon" for Greenwood Press's planned reference work *An Encyclopedia of Icons of Horror and the Supernatural*. Dr. Burleson was chosen to write the article because of his familiarity with the field of UFO studies and his experience writing literary criticism. The finished encyclopedia article will cover the fictional treatment of extraterrestrials in both literature and film and will explore ways in which reportedly real UFO events have influenced the making of certain films on the subject.

NURSING STUDENT RECEIVES SCHOLARSHIP

A level two nursing student at ENMU-Roswell, Janeen Pirtle, has been selected as the first recipient of the Elizabeth Tulk Nursing Scholarship for this spring semester. Pirtle plans to work in the local area following graduation and is interested in ICU, emergency room, and surgical nursing.

Phyllis Tulk, a long time Family Nurse Practitioner in Chaves County, donated \$2,000 to establish a nursing scholarship in her mother's name. The Elizabeth Tulk Nursing Scholarship will fund in-district cost of tuition and fees for a student carrying 12-18 credit hours. One student per semester will be selected for the scholarship for four semesters. Students must apply for the scholarship each semester. Students are eligible to apply if they meet the following criteria:

1. Second year nursing student
2. Resident of Chaves County for at least two years
3. Grade Point Average of at 3.0 or above in nursing classes
4. Demonstrated commitment to work in Chaves County after graduation.

Students will be asked to write a letter with that information and provide a transcript. Tammy Lueras, Nursing Program Director, will approve the selection prior to the award. For more information, contact Lueras at 624-7237.

ENMU-ROSWELL 2006 PE CENTER INTRAMURALS FOR MARCH AND APRIL

ENMU-ROSWELL SPECIAL SERVICES DIRECTOR PRESENTS IN TEXAS

Denise McGhee, the Director of Special Services at Eastern New Mexico University-Roswell, made a presentation to parents and teachers involved with the North Texas Special Needs Assistance Partners (SNAP), Inc. on Wednesday, February 15. North Texas SNAP Inc. creates choices for people with disabilities in the area. McGhee discussed the ENMU-Roswell Special Services Occupational Training Program during a meeting at the Harris Methodist HEB Hospital at the Edwards Cancer Center in Bedford, Texas.

The vocational training program is designed for students with disabilities and prepares students for employment and independent living. In the past eight years, the placement rate for students completing the program has remained at 70 percent or higher. The diverse course offerings prepare students for a productive future in their chosen occupations.

For more information about the program, contact McGhee at 624-7289.

ENMU-ROSWELL OFFERS ONLINE PAYMENT SERVICE

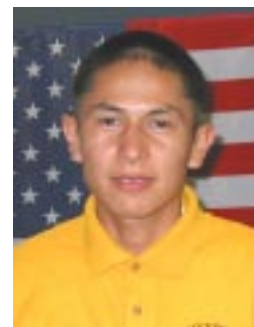

Students at Eastern New Mexico University-Roswell can now make online payments to the university. The new, free, and easy to use service allows students to manage their billing online. With ENMU-Roswell's Online Payment Service, students can pay their bill online, set up an automatic payment schedule, and view billing and payment history through an easy-to-use interface. The service is being provided through a gateway from Bank of America.

To enroll, students can click on the "ENMU-R Payment Gateway" icon on the home page of the campus web site at www.roswell.enmu.edu Students begin by entering their Student ID Number and Billing Zip Code, then read and accept the Terms and Conditions and select ENROLL NOW. Once enrolled, students can enter their e-mail address and password and select LOG IN. For more information or for assistance with any problems call 624-7138.

ENMU-ROSWELL WELCOMES NEW EMPLOYEES

Sergio Francisco (pictured at right) began his position as Security Officer at ENMU-Roswell on February 8. He attended college in Chandler, Arizona. He loves to learn new things and enjoys reading.

Cody S. Blowers began his position as EMS instructor on January 30. He attended Brown Institute in Minneapolis, and received his AAS in EMS at ENMU-Roswell. He enjoys long distance driving, traveling the country, spending time with his family and children, loves action and comedy movies and thinking.

"NO CHILD LEFT WITHOUT HOPE" CONFERENCE HELD FEBRUARY 22-24, 2006

ENMU-Roswell and a large group of agencies in Chaves County sponsored the "No Child Left Without Hope" conference funded through a grant from the Substance Abuse and Mental Health Services Administration (SAMHSA) from February 22 through 24. The FREE conference was designed for families, agency representatives, school employees, and anyone in the community who is committed to help young people succeed at home, in school, and in life.

Nationally recognized presenter, O. Raye Adkins, Ed.D, from Dr. Ruby Payne's AHA Corporation presented "The Framework of Poverty" on Wednesday, February 22. Dr. Adkin's work is now used throughout the nation as a guide for agencies and schools. The focus was on issues central to working with students from poverty and offers proven tools to make a difference. Currently, Raye is involved in educational research and serves as a consultant for **AHA!**

On February 23, presentations included "The Brain Gain—Seven Significant Principles of Brain Development" by Tim Burns, Educare Media Literacy Project, Santa Fe, NM; a presentation by Calvin Hunt, author and pastor from Christ Tabernacle Church in Brooklyn, New York; an introduction to working with sensorimotor issues in young children; and a presentation that addressed honoring cultural diversity in families.

Friday, February 24 provided an opportunity for every agency in the community that is working with children and families to share information about services that each provides. Participants then worked in small groups to identify components of a strategic plan for Chaves County, developed a plan for the next five years, and created strategies to move that plan forward. Goals for the conference included:

- Identifying the services available through each collaborating agency
- Introducing participants to the effects of poverty on families and children
- Introducing participants to the cultural diversity of families in the region including language, religious practice, beliefs and values, parenting practices, and values systems that help to shape the family and its children
- Reviewing evidence-based approaches that are appropriate to use in developing a comprehensive system of substance abuse and mental health prevention services for youth ages 0-18
- Developing a plan of action leading to the creation of an easily accessible referral and case management system that provides "one-stop shopping" for at-risk families and children

Mayor Bill Owen

O. Raye Adkins, Ed.D

ENMU-ROSWELL HOSTS AN 'EVENING WITH EASTERN'

High school students and parents are invited to spend an 'Evening with Eastern' on Thursday, March 16. The event will be held in the Roswell Convention and Civic Center from 5:30 p.m. to 8:00 p.m.

Students and parents can enjoy free refreshments, meet with staff and faculty, take home prizes, and see what ENMU-Roswell has to offer. Two tuition scholarships will also be given away and those who attend can enter in the grand prize drawing for a new Gateway computer.

For more information, call 624-7403.

RESIDENTS INVITED TO JOB FAIR

The New Mexico Department of Labor and ENMU-Roswell will present the Eastern New Mexico 2006 Job Fair on Saturday, April 1 at the Roswell Convention and Civic Center from 10:00 a.m. to 2:00 p.m. Admission is free. Contact Carmen Cordova at 624-6040.

ENMU-ROSWELL STUDENTS TO ENJOY SPRING BREAK

ENMU-Roswell students will enjoy a well-deserved spring break from Saturday, March 25, through Friday, March 31. Regular campus hours resume on Saturday, April 1.

Although classes will not be held, the campus will keep normal business hours.

ENMU-ROSWELL FOUNDATION HOLDS ANNUAL BANQUET

The ENMU-Roswell Foundation will hold its 5th Annual Foundation for the Future Banquet on Thursday, April 18 at 6:00 p.m. at the Best Western Sally Port Inn and Suites.

For more information, contact Susan Keohane at 624-7059.

ROSWELL READS EVENTS

"Roswell Reads *A Place to Stand*" by poet and author Jimmy Santiago Baca
3/7: Public discussion, 3:30 p.m., NMMI, Hinkle Hall, VMV Ballroom

3/14: Public invited to free presentation by Santiago Baca at the ENMU-R Performing Arts Center, 7:00 p.m.

4/10: Open Poetry Night, NMMI, Mabee Lecture Hall, 7:00 p.m.

For more information, contact Annemarie Oldfield at 624-7001.

MESA STUDENTS EXPLORE HEALTH CAREERS

On Friday, February 10, 95 students from Carlsbad, Goddard High and Roswell High Schools, as well as Ruidoso attended a Health Occupations Career Workshop at ENMU-Roswell. This is the second year students have participated in the career workshop. Betty Chancey, of NM MESA, stated that student response to this workshop has been overwhelming, and that it will become an annual event.

ENMU-ROSWELL PARARESCUE CLASS THANKS HEALTH ORGANIZATION

Eastern New Mexico University-Roswell and the United States Air Force Pararescue/Combat Rescue Officer School (USAF PJ/CRO School) presented a plaque of appreciation to Presbyterian Healthcare Services on February 22.

"The program is very appreciative of the receptiveness and the quality experience the students received," said Mike Buldra, Director of the Emergency Medical Services Education Program at ENMU-Roswell. "The assistance from Presbyterian Healthcare Services has been essential for the students' clinical experiences. The result will be better care to military and civilian personnel and ultimately, lives saved," he said. "ENMU-Roswell is also appreciative to these individuals for their expertise and energy in providing the students with one-on-one direction as clinical instructors," said Buldra.

In February 2002, the students from the USAF PJ/CRO School began training as paramedics, in partnership with ENMU-Roswell, at Kirtland Air Force Base in Albuquerque. Since that time, Presbyterian Healthcare Services and other local hospitals and emergency medical service agencies have been providing the students with clinical opportunities to advance the students' training. Instructing these students in the hospitals were registered nurses, physicians, respiratory care practitioners, and technicians. Instructing the students at the EMS facilities (fire departments and ambulance services) were New Mexico Licensed Paramedics.

"We are proud to partner with Kirtland Air Force Base in this unique training program, and we are so grateful to the various agencies, groups, and individuals that opened their doors and their hearts to assist in the training," said Dr. Judy Armstrong, ENMU-Roswell Provost. "Without their cooperation and support, the program could not have been accomplished. It is a privilege and an honor for ENMU-Roswell to work side by side with Kirtland and these agencies to provide the highest quality training and experience for these truly outstanding airmen," she said.

The students' clinical and field experience is a six-week intensive clinical and field rotation. Students logged over 220 hours in the hospital, which included the Emergency Department, Intensive Care Units, Pediatric, Operating Rooms, Labor and Delivery, Respiratory Therapy, and Trauma Intensive Care Units. Students also completed more than 220 hours of field time on fire department and ambulance services vehicles, providing care to patients under the supervision of New Mexico Licensed Paramedics.

Since 2001, eight classes have graduated from the program, going on to become Pararescuemen. The primary mission of Pararescuemen is that of a personnel recovery specialist with emergency medical capabilities in peacetime and combat environments. They also specialize in search and rescue (SAR); combat search and rescue (CSAR); recovery support for NASA; and conduct other operations as appropriate, including Special Operations. Pararescue personnel also have an increased role in providing care to civilians in areas of military operations. With the longest training pipeline in the Department of Defense, the PJ/CRO career fields require up to two years to complete eight specialty schools, including Paramedic training.

Through a unique consortium, ENMU-Roswell Emergency Medical Services (EMS) instructors are providing advanced paramedic training to military personnel caring for troops fighting the war on terrorism. This arrangement is the first of its kind between a military entity and an educational institution. The program is over 1000 hours long and provides these students with 60 credit hours. This class is part of the New Mexico EMS Consortium, an agreement between USAF and ENMU-Roswell.

ENMU-ROSWELL STUDENTS SELECTED TO ALL-STATE ACADEMIC TEAM

Two honor students at Eastern New Mexico University-Roswell have been named to the 2006 All-State Academic Team sponsored by the New Mexico Association of Community Colleges (NMACC) in recognition of their top academic achievements and community service. Christopher Serna and Lance Andrew Kloefkorn were among a group of 36 academic "athletes" from New Mexico's community colleges recently honored at a special ceremony in Santa Fe with legislators, educators, and business leaders from around the state.

Kloefkorn, 26, was named a First Team Member and received a \$300 stipend. Kloefkorn is a member of Phi Theta Kappa, has a 3.8 grade point average and will graduate in May with an Associate of Arts degree in University Studies. He plans to transfer to the University of New Mexico and pursue a bachelor's degree in Political Science. His long-term goals are to earn a master's degree in Public Administration, attend law school, and obtain a Juris Doctorate. Kloefkorn would like to practice law and possibly run for public office. He enjoys the political process and "standing out in a crowd."

Serna, 23, was named a Second Team Member and received a \$100 stipend. He has a 3.58 GPA and will graduate in May with an Associate of Applied Science degree in Computer Information Systems. He is a Phi Theta Kappa member and also serves as President of the Art Club on campus. Serna plans to transfer to New Mexico Tech and pursue a bachelor's degree in Electrical Engineering. His long-term goal is to become a hardware/software engineer. Serna said he likes being challenged and that ENMU-Roswell has prepared him well for his future career.

In addition to the state recognition, All-State Academic Team students are eligible for full tuition scholarships at New Mexico's six public universities and College of the Southwest. The State Academic Teams were introduced in 1994 as a way to provide scholastic recognition to Phi Theta Kappa members while promoting excellence at two-year colleges. Phi Theta Kappa is the international honor society for two-year colleges, symbolizing excellence in higher education. To qualify for New Mexico's All-State Team, students have to maintain a minimum cumulative grade point average of 3.25, with demonstrated leadership skills and active involvement in community service.

Serna, Kloefkorn and the other team members will now compete for a spot on the All-USA Academic Team, sponsored by Phi Theta Kappa, USA TODAY and the American Association of Community Colleges. That team is announced later in the spring.

Lance Andrew Kloefkorn

Christopher Serna

BINGAMAN HOSTS ANNUAL LEADERSHIP INSTITUTE

U. S. Senator Jeff Bingaman hosted his 18th Annual Student Leadership Institute on campus February 21. About 100 outstanding high school students from across the southeast region attended the half-day conference. Bingaman's staff in Washington D.C. met with students and guided discussions about important issues facing the country. The goal of the conference was to help students increase their awareness of public policy and encourages students to get involved in the development of public policy.

Provost, Dr. Judy Armstrong also met privately with Senator Bingaman to discuss education issues at the federal level.

CHED KINDLEY RECEIVES FISH AWARD

During the week of February 20, ENMU-Roswell staffers were dismayed to discover that the campus e-mail was not functioning.

Ched Kindley, Assistant Network Manager, stayed on campus until the 'wee hours' to fix the system. He was able to recover the campus e-mail system and save e-mails that were sent during the downtime.

The "O-Fish-al Philosophy Award" was presented to Ched on February 27, by the ENMU-Roswell Provost, Dr. Judy Armstrong.

"The Fish Award" is given to outstanding employees to express thanks for their exemplary service.

The Grapevine is produced by the ENMU-Roswell College Development/Community Relations Office. For further information, to contribute to future issues of the Grapevine, or to contact the Community Relations Office, call Linda Whitehead at 505-624-7404 or e-mail her at linda.whitehead@roswell.enmu.edu. ENMU-Roswell is an Affirmative Action and equal opportunity employer. The University does not discriminate on the basis of race, color, national origin, sex or handicap in its programs, activities, or employment. Persons seeking additional information about the University's nondiscrimination policy should contact the Director of Affirmative Action, ENMU-Roswell, P.O. Box 6000, Roswell, NM 88202-6000.
