An off-campus geology summer field camp(similar to GEOL 424) with a minimum credit of 6 hours is also required. The field course chosen by the student **must** be approved by the Geology staff before the student enrolls. Information on field camps should be obtained during the fall semester and enrollment in the program should be attempted early in the spring preceding the summer of the field course matriculation. Student should plan financial arrangements for the field camp as early as possible prior to enrollment in the field course. Financial aid is sometimes available for the summer course through outside funding agencies but early application is essential. The geology summer camp taught by the department, if taken in the final 32 hours, will count for part of the 32-hour residency requirement.
